DETAILED ACTION

Receipt is acknowledged of the information disclosure statement filed
06/09/2003.

Information Disclosure Statement

Applicant is reminded that a properly filed IDS should contain a name and date
for each document.

Specification

This application does not contain an abstract of the disclosure as required by 37
CFR 1.72(b). An abstract on a separate sheet is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that
form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public
use or on sale in this country, more than one year prior to the date of application for patent in the United
States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by
Azizi et al.

Azizi et al disclose transplantation of human marrow stromal cells and Astrocyte
precursors (neurospheres) (see Abstract; page 3910, Results). The transplanted cells
behaved like endogenous CNS stem cells, see Migration of Implanted Cells, page 3911.
Finally, Azizi et al suggest the use of the transplant in treatment of various diseases.

Although Azizi et al used a healthy brain, there is no reason to believe the method would not work with a diseased or injured central nervous system. The instant claims are anticipated by Azizi et al.

Kohyama et al is cited for its teaching of the use of bone marrow stromal cell transplantation to the CNS.
